Executive Appointments Announcement

WADE Canada thanks [James Sidlofsky](#), Partner at Bordner, Ladner Jervais LLP for his dedication and commitment as Chair this past year. James continues his commitment to the Board.

We are excited to announce the following Executive appointments:

[Chair](#)

Jan Buijk, President and CEO of European Power Systems

[Vice Chair and Interim Treasurer](#)

Brent Harris, Vice President of Sustainable Technologies

[Secretary](#)

James Sidlofsky, Partner at Bordner Ladner Jervais LLP

[Feature Project - A Slow Spin on Water Power](#)

New Energy Corporation (NEC) is making international headlines as their turbine starts to harness energy from the Yukon River in Alaska. The in-stream 25kW turbine spins slowly at a maximum speed of 22 rpm and is NEC's latest installation.

[Enmax Corporation Receives \\$14.5 million for Renewable Power Project](#)

Lighting the way for Albertans to empower themselves in producing and using their own energy, Enmax's program has received \$14.5 M in funding from Climate Change and Emissions Management Corporation (CCEMC) to install solar panels and wind turbines in the homes of its customers at a reduced cost.

[Full Announcement](#)

[New Corporate Member- Refuel Systems Inc.](#)

Refuel Systems provides a proven, filtration solution that will ensure bio blend and ULSD (Ultra Low Sulfur Diesel) fuels do not impede on-demand engine start-up and continuous operation 24/7.

[Full Announcement](#)

[New Student Member- Geoff Hill, PhD Candidate University of British Columbia](#)

Geoff dedicates his research efforts to waste management and clean energy technologies. He founded and coordinated UBC's Biodiesel Project and is conducting PhD work on human waste management in remote Alpine and Arctic environments. He is concurrently running a small business, called Switchover.ca, converting diesel automobiles and generators to burn used cooking oil as fuel.
